

A COVID-positive person in supervised K-12 setting should isolate for 10 days.

Did the person expose anyone else at school?

(Was the person within 6 feet of anyone else for > 15 minutes over a 24-hour period within 48 hours before symptom onset or positive test?)

YES

NO

Exposed person is not a student
Is the exposed person vaccinated?

Exposed person is a student
Is the exposed student vaccinated?

There are no close contacts
who need to quarantine

YES

NO

YES

NO

Is the exposed person
symptomatic?

**10-Day
Quarantine**

No quarantine; Test at day 5-7
after exposure

Were both the positive person and
exposed student wearing masks
during the exposure?

YES

NO

YES

NO

**Exclude from campus. Test
at day 3-5 after exposure,
may return if negative test
and symptoms resolving***

**No quarantine; Test at
day 5-7 and monitor
for symptoms.**

**Modified Quarantine: exposed student may continue
in-person instruction only and must test 2x per week
for 10 days[^]; no sports, community or extracurricular
activities until end of quarantine. (May shorten
quarantine to 7 days if negative test on or after day 5.)**

**Exposed student 10-day quarantine
if untested; may shorten quarantine
to 7 days if negative test on or after
day 5.**

NOTE: PCR test is preferred, but antigen tests are acceptable.

[^] = Recommended cadence is immediately after learning of exposure, then every three days after that.
